

KRK MOLDS AND DIES

COMPANY PROFILE

KRK MOLDS AND DIES

*** INNOVATION IN EVERY STEP ***

About us,

Founded in 2019, KRK MOLDS AND DIES is a full service producer of injection molds for the plastic ,rubber and Die casting industries. Formed by a team of professionals who have worked in the NPD and tooling department in various OEMs and MNC Tier 1 companies. We service a variety of industries including automotive, electronics, Home Appliances ,medical and military. We also offer repair and engineering changes on all molds, including those designed and built elsewhere.

KRK MOLDS AND DIES

*** INNOVATION IN EVERY STEP ***

Vision,

Our vision is to create a complete ECO SYSTEM for injection mold manufacturing and production of injection molded parts, So the customer can expect and experience all solutions and services required during tool life cycle under one roof.

Mission,

We focus on providing precision molds with good service & optimum lead time at a reasonable price. We are capable of manufacturing precision injection molds for moulding machine range of 50T to 500T with mould weight up to 3 Ton.

Our tool room machining capabilities.

CNC (VMC) MACHINE NO: 1

MACHINE TRAVEL SIZE : 800mm X 510mm X 510mm

CNC (VMC) MACHINE NO: 2

MACHINE TRAVEL SIZE : 850mm X 510mm X 510mm

SPEED 10000 RPM WITH CHILLER

SURFACE GRINDING MACHINE

MACHINE TRAVEL SIZE : 300mm X 300mm

Excetek ZNC EDM ED30Z

MACHINE TRAVEL SIZE : 300mm X 200mm X 200mm

LATHE

MACHINE TRAVEL SIZE : 4 FEET.

DRILLING

COVENTIONAL DRILLING MACHINE.

WIRE CUT MACHINE NO: 1

MACHINE TRAVEL SIZE : 400mm X 300mm X 250mm

We are planning to extend our tool room with high precision machine soon.

Our tool room machining capabilities.

INJECTION MOULDING MACHINE NO: IMM 01

MACHINE NAME : YIZUMI ADVANCED PROCESSING INJECTION MOULDING

TONNAGE : 200 T / DESCRIPTION : UN 200 SKIII

INTERNATIONAL SPECIFICATION : UN 200 SKIII / IU 895

MACHINE TYPE : STANDARD HYDRAULIC MACHINE

INJECTION MOULDING MACHINE NO: IMM 02

MACHINE NAME : YIZUMI ADVANCED PROCESSING INJECTION MOULDING

TONNAGE : 120 T / DESCRIPTION : UN 120 SKIII

INTERNATIONAL SPECIFICATION : SKIII 120T / IU 420

MACHINE TYPE : STANDARD HYDRAULIC MACHINE

We are planning to extend our tool room with high precision machine soon.

KRK MOLDS AND DIES

*** INNOVATION IN EVERY STEP ***

Our capabilities,

- Full in house design and design capabilities.
- All Machining capabilities.
- Vast expertise in all elements of injection molds.
- Plastic part regular production capabilities
- Stage wise inspection by CMM, VMS capabilities.
- Full functional molds, mold compositions, engineering Changes and repairs.
- Vast capabilities in handling all machining techniques.

List Of Measurements :

- ❖ Digital height gauge.
- ❖ Digital Vernier Caliper.
- ❖ Digital Micro meter.
- ❖ Try square
- ❖ Surface dial gauge.
- ❖ Surface table.
- ❖ Bore gauge.
- ❖ Depth Micro meter
